Slogan: A time to listen, learn, and act.

EDIG Background

Organising sponsor: Irish Centre for Research in Applied Geosciences (iCRAG)

Our aims: The EDIG project was started to promote effective, long-term positive change in the geoscience community, and to help geoscience become more inclusive, diverse, and equal.

Our planned events: The EDIG team are planning several events for the rest of 2020 to keep the conversations and learning on equality, diversity, and inclusion in geoscience moving forward. The first event is an online survey to better understand the impacts of these issues on our community. The results of this survey will be used to structure an online event later this year.

Key dates: The survey will be launched on September 14th 2020 and run for two weeks. Conference TBC.

Web page: For more information on EDIG and our plans, visit our web page at <https://www.icrag-centre.org/edig/>
