FIRST FLYER

Announcement

Professors, researchers, professionals, students and businessmen of the international community, the University of Moa invites you to participate in the X International Conference for the Exploitation of Mineral Resources "CINAREM'20", which will be held at the Tourist Pole of Guardalavaca, province of Holguín, Cuba, from April 7 to 9, 2020. The event aims to publicize international scientific advances in various areas of knowledge, exchange experiences, create a network of colleagues and graduates and involve the new generations in this field of knowledge. The event will include master conferences, panels, round tables, posters and exhibition fairs.

Dates to be considered:

- Reception of abstracts: until January 31, 2020
- Confirmation of acceptance of works: until February 15, 2020
- Reception of works: until February 29, 2020
- Development of the event: February 7, 8 and 9, 2020

The payment of the Registration Fee can be made by bank transfer or at the time of registration in cash or check.

The registration fee includes

Credentials and documentation of the event (program, book of abstracts). Participation in all scientific activities, lunches and refreshments. Certificate.

EVENT WORKSHOPS

XIV International Workshop on Environmental Protection and the Georrecursos "PROTAMBI'20"

Thematic:

- Mining and the environment
- Air, water and soil quality
- Environment and health
- Climate change
- Environmental education
- Conservation and rational use of natural resources
- Legislation, management and environmental economics
- Cleaner productions

XIV International Geology and Mining Workshop "GEOMIN'20"

Thematic:

- Regional and local geodynamics
- Exploration and exploitation of mineral deposits
- Underground constructions
- Geoethics and education in geosciences
- Construction materials
- Water resources
- Mathematics and computer science applied to Geosciences
- Geotourism

X International Seminar on Metallurgy and Materials "METALMATER'20"

Thematic:

- Mineral benefit
- Extractive, ferrous and non-ferrous metallurgy
- Science and engineering of materials
- Materials technologies
- Energy Technology
- Use of secondary raw materials
- Process control
- Teaching and training of professional

X International Electromechanical Workshop "ELECTROME'20"

Thematic:

- Exploitation and maintenance of assets
- Manufacture process
- Transportation systems
- Electric machines and drives
- Automation and control
- Design of industrial parts and equipment
- Efficiency and energy conservation
- Renewable sources of energy and environmental respect

VI International Workshop of Mining Communities "COMIN'20"

Thematic:

- Mine closure: economic and social impact
- Geological and mining heritage
- Economics applies to local contexts
- Local development and community projects
- Mining company and social responsibility
- Education, culture and health
- Women in mining

I International Workshop on Mining Teaching

I International Workshop on Hazards, Risks and Vulnerabilities

I Meeting of students associated with the development of the mining-metallurgical industry

I Meeting of graduates of the Higher Metallurgical Mining Institute of Moa

International Symposium life and work of Antonio Núñez Jiménez
