

GOAL

GEOETHICS OUTCOMES AND AWARENESS LEARNING

WHAT IS GEOETHICS?

According to the International Association for Promoting Geoethics (<http://www.geoethics.org>):
“Geoethics consists of research and reflection on the values which underpin appropriate behaviours and practices, wherever human activities interact with the Earth system.”

THE “GOAL” PROJECT

GOAL is an Erasmus+ Strategic Partnership Project that will explore the emerging territory of Geoethics in order to articulate knowledge and good practices in the field through an innovative and creative approach.

An interdisciplinary approach will be provided by GOAL team members from six partner institutions.
